

It has become evident that Democratic leaders and the rest of their party are more interested in protecting illegal immigrants and foreign nationals than protecting American citizens and passing a budget to avoid a government shutdown.

As a government, we are charged with supporting the well-being and safety of all American citizens. In order to fulfill this responsibility, we must secure our borders, end chain migration, and mandate E-Verify as a national practice.

We don't need to promote the practice of rewarding illegal aliens by providing jobs and safe havens, but, rather, our obligation is to law-abiding American citizens.

We cannot take care of the rest of the world if we are unable to take care of America and its citizens first.

AFL-CIO 2018 MLK CONFERENCE

(Ms. JACKSON LEE asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. JACKSON LEE. Mr. Speaker, this weekend, I will join the AFL-CIO's 2018 MLK Conference dealing with civil and human rights. At that time, we will discuss the GOP tax scam that stops the labor movement in its tracks because 83 percent of the tax cuts goes to the wealthiest 1 percent and raises taxes on 86 million.

I invite my constituents to join me from 1 to 3 at the Hilton Americas, where we will be talking about the labor movement and the devastation of the GOP tax scam on the American people.

At the same time, I am glad that I live in a nation that welcomes those who want to serve coming from other countries and live up to the ideals of this country.

I want to pay tribute to Rose and Jose Escobar. Jose came to this country under TPS from El Salvador. It is important that this family not be broken up. Jose was unfairly deported and deserves humanitarian parole to come back to be with his loving wife, a citizen who works for the Texas Medical Center, and his two wonderful children.

TPS, again, is not violating or jeopardizing the American people's security. It is a reflection of our compassion, our humanity, and our respect for those who come to this Nation fleeing persecution and devastation. To send back Haitians, to send back El Salvadorans will be a terrible tragedy, and to send back our DREAMers will be worse. Let's work as Americans to make this country what it is, our greatest country in the world.

102ND ANNUAL PENNSYLVANIA FARM SHOW

(Mr. SMUCKER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SMUCKER. Mr. Speaker, this past Saturday I attended the 102nd Annual Pennsylvania Farm Show. It was great to speak to and see so many constituents there supporting and learning about our agriculture community.

The farm show is special to Pennsylvania. It is the Nation's largest indoor agricultural event. It showcases more than 12,000 competitive exhibits, more than half of which are animal exhibits. More than 1,000 exhibitors and competitors were from my congressional district, like Natalie Eberly, who was showing Polled Hereford beef cattle.

It is well known for its delicious food, which I enjoyed and which raises money for nonprofits that support our agriculture community. This farm show highlights just a sliver of the industry that employs nearly half a million people in Pennsylvania and contributes \$185 billion to our economy each year.

Special thanks to Congressman G.T. THOMPSON, my colleague from Pennsylvania, who is vice chair of the ag committee who conducted a listening session with other members of the Pennsylvania delegation, as well as members of the ag committee. I was very pleased to welcome to Pennsylvania ROGER MARSHALL from Kansas and Ranking Member COLLIN PETERSON. It was a great session with many members of the ag community from across Pennsylvania.

I also would like to thank Farm Show Executive Director Sharon Altland for once again putting on a fantastic show. I also thank PA Ag Secretary Redding and U.S. Department of Agriculture Under Secretary Greg Ibach for attending and participating in the listening session as well.

Once again, fabulous show. I look forward to attending again next year.

RECOGNIZING HEATHER RICHARDSON-BERGSMA

(Mr. BUDD asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BUDD. Mr. Speaker, I rise today to recognize High Point native Heather Richardson-Bergsma for qualifying for the 2018 Winter Olympics in speed skating. Holding multiple world records, she will be competing for her first Olympic medal this year.

Heather's hunger for speed skating began at an early age. Growing up just a few minutes from our local High Point roller rink, Heather's talents were recognized by a local coach who suggested she start taking inline speed skating classes.

Although she was told she must wait a full year before she could compete, her passion and dedication for the sport did not waiver, and a year later she competed in her first race.

The Olympics mark crowning achievements in every Olympian's career. The many years, hours, minutes, and seconds they have devoted to

training all come down to fulfilled dreams and broken records.

Heather's dedication, passion, and perseverance demonstrate the characteristics found in every great athlete. I am proud to recognize Heather today and I wish her the best of luck next month.

RECOGNIZING JAVASCOUTS ROBOTICS TEAM

(Ms. TENNEY asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. TENNEY. Mr. Speaker, I rise today to recognize the JavaScouts, a youth robotics team from my hometown of New Hartford, New York.

In December, the JavaScouts competed in the regional qualifier for the FIRST Tech Challenge at Sauquoit High School, where they qualified for the regional championship in New York.

The JavaScouts also received the FIRST Tech Challenge Inspire Award, which is presented to the team that judges feel acted as a positive role model to other teams and embraced the challenge of this program.

I would like to extend my congratulations to the JavaScouts team personally: Keegan Birt, Liam Evans, Kyle Grover, Ari Sprague, Kyle Tuttle, Jimi Wadnola, and Leon Zong.

I wish the JavaScouts continued success as they move forward to the regional championship. I take great pride and it is a great honor in representing these young constituents who place such an emphasis on determination, ingenuity, and education in achieving these many worthy goals.

CONGRESSIONAL APP CHALLENGE WINNERS

(Mr. CARTER of Georgia asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CARTER of Georgia. Mr. Speaker, I rise today to recognize the winning team for the 2017 Congressional App Challenge for the First District of Georgia: Cole Goldhill, Luca Dichiera, Joseph Kim, and Ryan Cranford.

Over the last 4 months, 190 Members of Congress hosted the Congressional App Challenge in their districts, where students compete to code original apps. 4,100 students participated, submitting over 1,000 original apps.

The winning team in Georgia's First Congressional District is from Richmond Hill Middle School and created the app, "Wing Finder." This app enables individuals who enjoy viewing butterflies to find more information about those butterflies, comparing their wing colors to a database containing numerous facts about them.

I am proud of these students in Richmond Hill for doing such a great job coding and creating this app. Seeing what these students can achieve
